

# Aspects

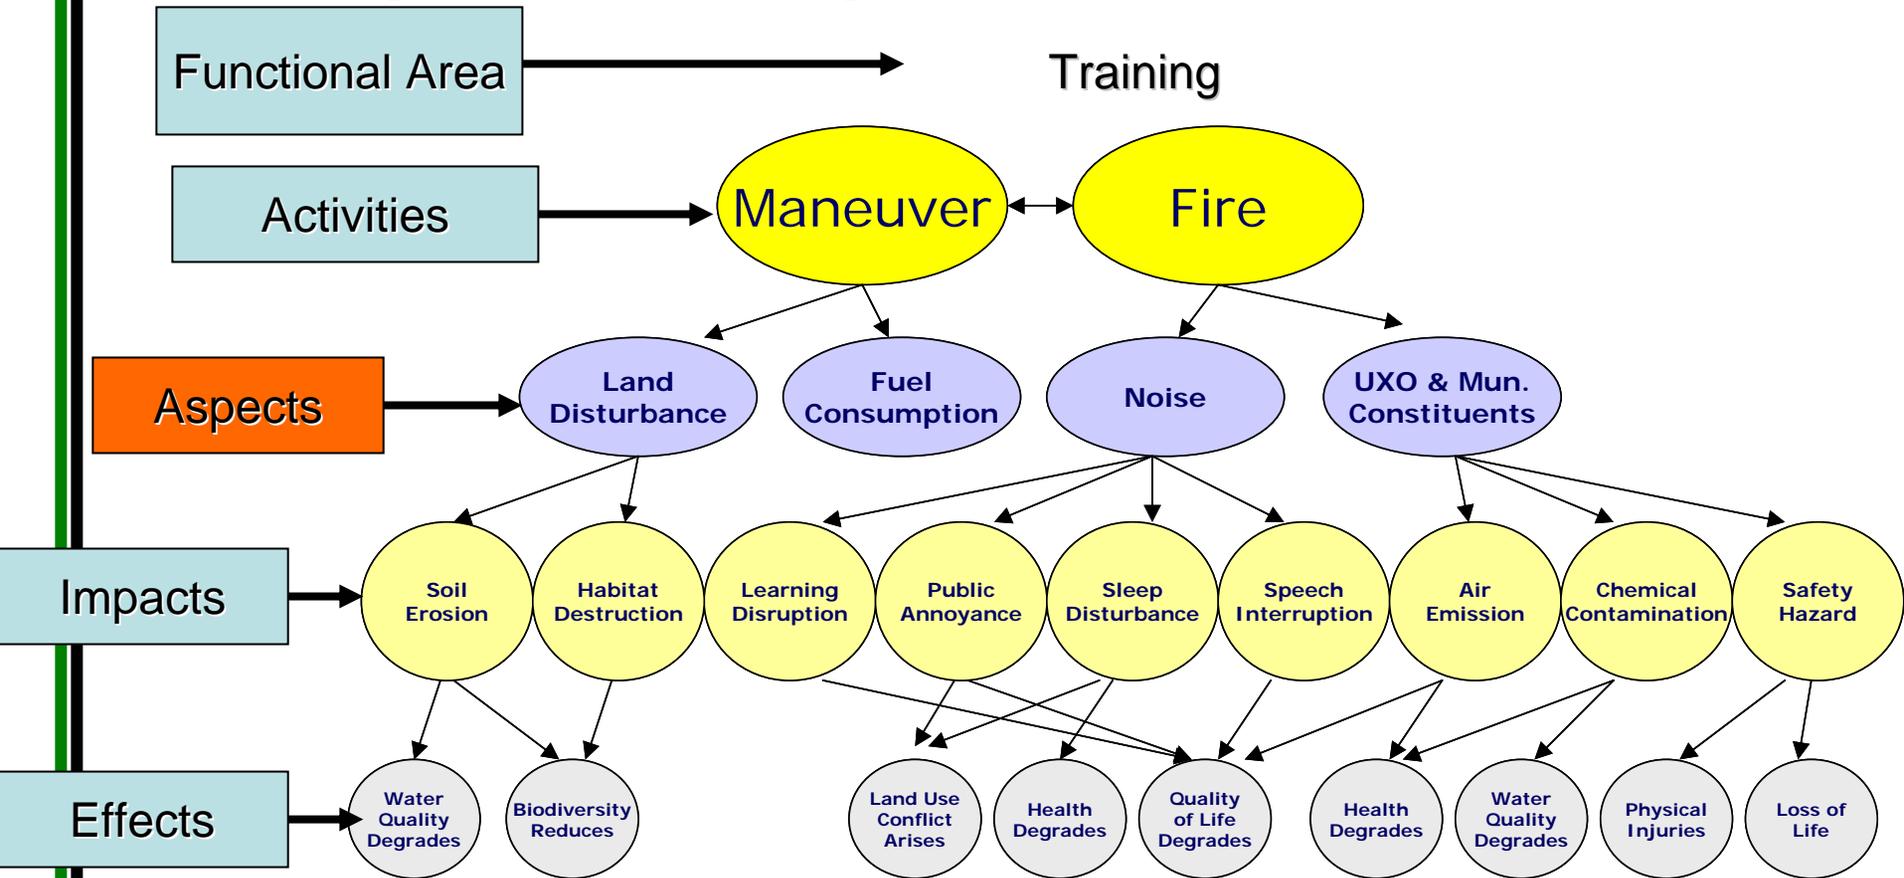

# Overview

- What is an aspect?
- Why is this important?
- An Example please

# What is an Aspect?

An aspect is element of your activities that interacts with (negatively or positively) the environment, the community, or the economy.

# Aspects, Impacts, Effects, Huh?

# Why is this important?

Aspects of our core competencies and activities lead to impacts to our environment, community, and economy

# An Example

For instance, with respect to transportation, the aspects could include:

- Noise
- Employment/economic growth
- Land disturbance
- Air emissions
- Fuel consumption

# And so...

Spend the next 30 minutes writing down the aspects associated with each of the functional areas (and activities) you identified previously.

Then we'll need you to brief.
